ABOUT US

DESES-3 is an organization, created in 2011, that works with young people, offering them opportunities of comprehensive training programs, while giving priority to those who are unemployed or have a cultural, social or economic disadvantage. We aim at social inclusion and thus provide the space and projects that will allow youngsters to develop their social skills.

OUR AIMS

- Participation in aid programs and raising awareness about the need of cooperation regarding development in third and fourth world countries.
- Organization and dissemination of training activities and informational events on the topic of health and disease prevention.
- To inform, sensitize raise awareness and manage activities related to the environment.
- To carry out activities such as courses, seminars and training days regarding leisure time and more.
- To contribute to the personal development of individuals and help them achieve their full potential – physically, intellectually and socially – as citizens. Attention is given to those who are most in need of assistance. These could be people unprivileged socially, culturally, economically, physically, mentally, ethnically etc.
- Development of actions and programs for social intervention and integration.
- Carrying out activities, classes, camps, youth exchanges, tours and trips with and for children and young people, linking to the areas of formal and non-formal education.
- To promote activities, programs, projects relating to societal integration and the incorporation of immigrants into our society.
- Developing proposals and actions on gender equality, providing support to women, and promoting their inclusion and equal participation in society.
